**Zurn PEX® QickCap® Crimp Ring:  
Easier Installation and Worry-Free Connections**

**ERIE, PA** – Zurn Industries, LLC introduces the new Zurn PEX® QickCap® Crimp Rings with Positioning End Cap for crimp connections in plumbing and radiant heating applications.

The Zurn PEX QickCap Crimp Rings enable optimum crimp connections, virtually eliminating ring movement during installation, making it easier to accurately position the copper crimp rings onto Zurn PEX large diameter tubing.

The QickCap is a proven ASTM F1807 fitting system, meeting plumbing and heating code requirements. Reliable performance delivers a 360 degree seal for leak-free connections. Crimp Rings are available in ½", ¾", 1", 1 ¼", 1 ½" and 2" sizes. They are suitable for both commercial and residential plumbing systems.

"Zurn understands that every moment on the job counts," says Jeff Exley, Water Distribution Product Manager for Zurn Industries, "which is why we are excited to deliver a labor-saving, easy to use solution for our PEX customers".

**About Zurn Pex, Inc.**

Zurn Pex, Inc. is the world leader in the design and manufacturing of Zurn PEX® Plumbing Systems and components used in plumbing, radiant heating, and fire sprinkler systems. It is one of several business units owned and operated by Zurn Industries LLC.
