

*Snow & Ice Melt Systems*

# The IceBreaker

Winter can bring many pleasures but snow and ice removal is not one of them. Zurn Snow and Ice Melt (SIM) systems bring the fun back to winter. Durable Zurn PEX tubing is routed under driveways, sidewalks, parking lots ... virtually anywhere snow and ice can accumulate. Heated fluid is circulated through Zurn PEX tubing to melt snow and ice effortlessly! Zurn SIM systems take away the backbreaking work of shoveling and salting. The problem of what to do with accumulated snow is eliminated because it simply melts away. Tired of having snow and ice tracked inside or salt and chemicals damaging expensive flooring? Let Zurn melt your troubles away. Reduce liability associated with treacherous snow and ice accumulation and provide safe walkways, entries, and steps for your family, customers, or clients. Zurn SIM systems can be controlled with simple on/off or fully automatic controls. Typical applications include:

**Residential:** Driveways, sidewalks, steps, pool decks and wheelchair ramps.

**Municipal:** Streets, sidewalks, steps, parking garage entrance/exit ramps and upper decks, airport runways, helicopter landing pads, parking lots, and wheelchair ramps.

**Commercial:** Store and office entrances, exterior truck docking bays, walkways, and wheelchair ramps.

**Hospital:** Emergency entrances, walkways, steps, wheelchair ramps, parking lots, helicopter landing pads, and ambulance bays.

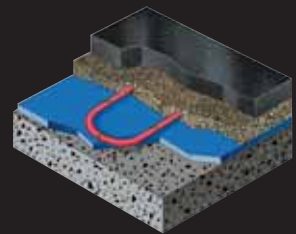

*Zurn Snow and Ice Melt systems provide snow and ice free surfaces effortlessly!*

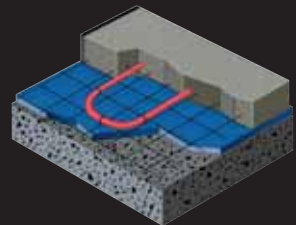

*Zurn Snow and Ice Melt systems help lower maintenance costs and reduce the liability associated with slippery walkways. Freeze-thaw damage to concrete and asphalt is reduced or eliminated. Damage to building entranceways is also eliminated since no water, salt, or ice melt chemicals are tracked in.*

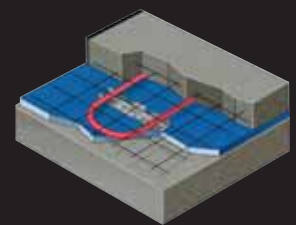

**Typical Zurn Snow Melt Installations**

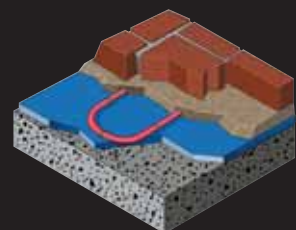

**Asphalt-On-Grade Installation**

**Slab-On-Grade Installation**

**Concrete Overpour Installation**

**Installation Under Pavers**

### ***Zurn Radiant Heating Systems***

Zurn radiant heating systems are an excellent choice. Our radiant heating systems utilize the highest quality products to provide comfortable, clean and energy-efficient heat, for home and building owners all over the world. Also remember Zurn PEX plumbing systems for your potable applications.
