

OPTIONS and VARIATIONS

All solids interceptor options and variations are specified as a PREFIX and/or SUFFIX letter or number added to the series designation. Below are the available options.

PREFIXES

Z Standard Assembly (See Engineering Specification)

SUFFIXES

-RS Replacement Perforated Screen(s) for Bucket

TYPICAL INSTALLATIONS

Z1185 LINT INTERCEPTOR

Lint interceptors are designed primarily for laundry equipment. Connected in the discharge line from any washing machine, they intercept debris from soiled water. Interceptors contain a permanently affixed Acid Resistant Coated steel straining baffle to remove large items, buttons, stones, etc., and a removable stainless steel secondary screen to remove lint.

Note: The Z1185 Lint Interceptor can be sized based upon the number of washing machines which it serves.
