

CONNECTED FLUSH VALVES

# Sustain Peak Condition

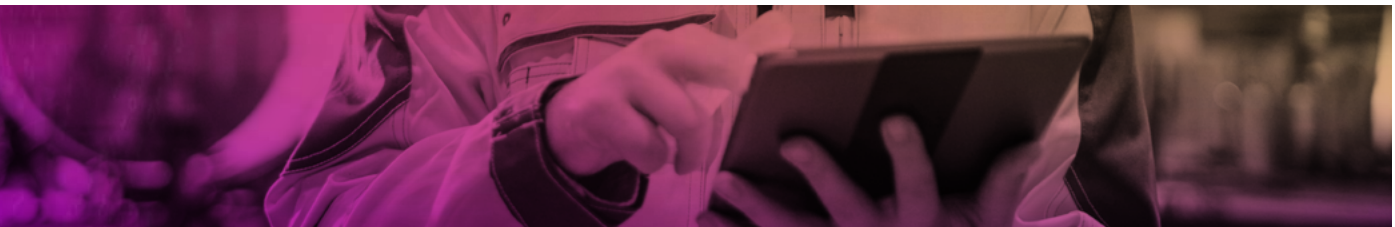

The guest experience starts the moment customers walk through your building's doors. That's why an out-of-order restroom sign is simply out of the question when you're busiest. Gain insights on flush valve usage trends to keep your restrooms running efficiently and customers coming back.

# During Peak Hours

No more guessing when to schedule cleaning and service work or dealing with costly repairs once it's too late. Stay connected to your flush valves to maintain order and avoid out-of-order signs during high-traffic periods. You'll know water consumption trends, peak hours, and when it's time for routine maintenance.

# When it's Connected, it's Expected

Does it feel like you're rolling the dice on when to replace parts or are you reacting too late in the game? Wish you could schedule preventative maintenance at the lowest traffic times? Or maybe you want to accurately measure and optimize water usage for LEED goals. Stay in control with Zurn Connected Flush Valves.

## Data Your Way

The only constant in your day is being busy. Manage your daily maintenance activities more efficiently by setting up automatic notifications through the secure portal, plumbSMART™.

You'll receive product insights, trends, and alerts on:

- ✓ Fixture usage patterns
- ✓ Water consumption metrics and trends
- ✓ Preventative maintenance needs

## At an Instant

The difference between a faulty flush valve and catastrophe is minutes. Receive notifications on the spot, so you can keep your restroom in working order, instead of temporarily out-of-order.

## All Hands on Their Device

Automatically get email notifications or choose to enroll in text alerts. And don't put all the responsibility in your hands. Simply, add your staff to plumbSMART, so they can receive alerts and oversee your building's products too.

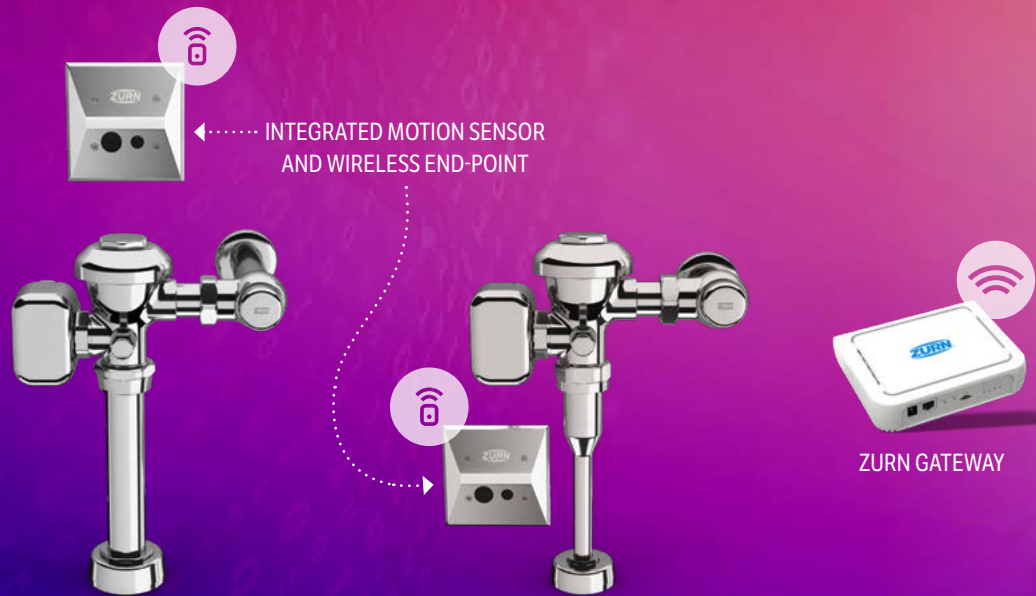

## Access from Anywhere

View your product's data and alerts from the web portal 24/7, no matter where you're at or what you're doing. Simply log in and track product and water usage and set up alerts to be notified in real time. The more you know, the more you can plan ahead.

# Less Manual

Let your equipment do the monitoring for you automatically

**CLOSET:** ZEMS6000AV-ONE-MOB-W1

**URINAL:** ZEMS6003AV-ULF-MOB-W1

- ✓ WIRELESS MONITORING OF FLUSH VALVE ACTUATIONS AND WATER CONSUMPTION
- ✓ CUSTOMIZABLE ALERT PARAMETERS
- ✓ REAL-TIME NOTIFICATIONS VIA EMAIL AND/OR TEXT

# More Control

Access your data and alerts on plumbSMART via your desktop or mobile device

ZURN CONNECTED PRODUCTS ALLOW YOU TO

# KNOW MORE

SO THE OLD WAY OF DOING THINGS IS NO MORE.

- Securely access plumbSMART 24/7 from your desktop or mobile device
- Get performance data and trends from dashboard-style alerts
- Group and organize your products to match your enterprise footprint
- Customize your alert settings and notification preferences
- Invite your broader maintenance staff to view data and receive alerts
