

Portable Hand Wash Station

Introducing our all new portable, ENVIRO Series hand wash sink

HYG1TP
(Fully Accessorized Unit)

HYG1ECO
(Hose Bib connect Unit)

The Zurn portable ENVIRO Series hand wash sink is constructed of heavy-duty 16 /18 gauge, type 304 stainless steel.

Hands-Free and Heavy-Duty

The HYG1TP station is self-contained from start to finish, including water from storage tanks below, sensor-activated soap dispenser, and auto-dispensed paper towel with side waste receptacle. Thanks to the heavy-duty design, you can use it indoors or outdoors. Our “On the move ... to the location you need” station comes to life in our all sensor HYG1TP unit or the just as durable but pared-down HYG1ECO.

Accomodate Child Through Adult Heights

If users vary within your environment, HYG1TP can be adjusted to any height requirement. Either model can be utilized within school locations, such as gymnasiums, classrooms, hallways, cafeterias, outdoor sporting areas, and other locations where accessible water is limited and hands-free cleanliness is a must.

Features

- Hands-free
- Child step (HYG1TP model only)
- ADA Compliant side reach
