

# Sensor Battery Flush Valves

## Zurn ZER-AV vs. Sloan G2

### Zurn ZER-AV

---

- All gaskets and seals made of chemical resistant TPE material lasting 8 times longer than Sloan Permex material.
- Integral triple filter diaphragm resists clogging to promote water savings.
- The internal diaphragm kit is the same as the manual flush valve. Easy to purchase. Low cost.
- Motor operator. One million life cycles tested.
- Chrome plated metal cover.
- Dezincification resistant low lead brass.
- Lock set screw vandal resistant stop cover.
- Five year warranty.

### Sloan G2

---

- Gaskets and seals made of Permex material.
- Snap on ring filter.
- Diaphragm kit is a special kit, not interchangeable with manual flush valves.
- Solenoid operator. Already known in the industry to have issues.
- Chrome metal/plastic cover.
- Red brass 8% lead content.
- Snap off stop cover.
- Three year warranty.
