300 Series First Fit Small Backflow Preventers

Simple and Safe Line Flushing With the 300 Series Small Backflow Saves Time and Money

The EZSwap™ Pressure Vessel is removed and replaced with the Flush Fitting Tool in seconds to remove fouling debris, avoiding unnecessary backflow removal and unrecoverable replacement costs.

Safe and Easy Line Flushing

- Line flushing is simple, safe, and easily directed to a safe drain
- Easy single person flushing saves up to **15 minutes** per unit
- Z-Press™ and Z-Bite™ solderless connections simplify and speed installation

Durability

- UV-resistant, reinforced nylon EZSwap resists corrosion and mineral build-up to better withstand harsh conditions

Availability

- With multiple regional service centers, Zurn representative warehouses, and local wholesale distribution partners, product is readily available for installation when needed

3/4" 375XL

Lead-Free Reduced Pressure Principle Assembly

“The 300 Series with Flush Fitting Tool is amazing. I can’t believe how quick and easy it is to install and use. No more fouled checks in new installs.”

300 Series First Fit Small Backflow Preventers

Simple Line Flushing with the 300 Series Flush Fitting Tool

1-1/2" 375XL shown

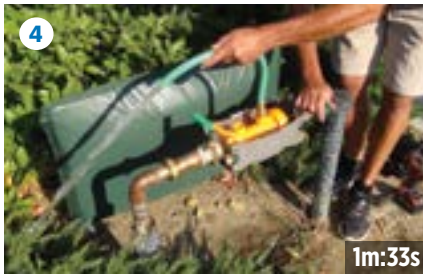

Backflow is installed with ball valves in the closed position.

Un-bolt and remove EZSwap™ Pressure Vessel.

Drop in and install Flush Fitting Tool. Attach hose.

Turn on inlet ball valve, direct water to landscaping or safe drain, and flush until clear.

Remove Flush Fitting Tool and reinstall EZSwap Pressure Vessel.

Commission the backflow and start up system.
