Z1322-EZ and Z1332-EZ
Ecolotrols: A Perfect Fit
For Installation In Tilt-Up Construction

**Labor Savings**
- Coring an 8" diameter hole in the wall results in time and labor savings over trying to hammer drill a square or rectangular hole
- Coring makes a smooth and clean cut opening without damaging the wall or chipping the interior wall surface, whereas a square or rectangular hole can crack or damage the precast wall during hammer drilling

**Innovative**
- The round sleeves of the Z1322-EZ and Z1332-EZ Ecolotrol wall hydrants have holes that allow the installer to secure them to the wall with hardware
- The wall’s smooth interior surface is easy to insulate (if required)

**Dependable**
- The square box face flanges of the Z1322-EZ and Z1332-EZ Ecolotrol wall hydrants provide surface areas that seal and waterproof (if required)
- Tight, secure fit provides for vermin-proof installation
Z1322-EZ Options

**SUFFIXES**
- **CL** Cylinder Lock
- **RK** Hydrant Parts Repair Kit
- **RT12** Ceramic Cartridge Removal Tool (Up to 12 [305] Wall)
- **34EL** 3/4 [19] IP 90° Solder Inlet Elbow
- **34FIP** 3/4 [19] IP Straight Female Inlet Adapter
- **8** 8 [203] Dia. Cored Hole

Z1322 ENGINEERING SPECIFICATION: ZURN Z1322-EZ Encased Ecolotrol “anti-siphon” automatic draining wall hydrant. For flush installation in 6 [152] dia. cored hole concrete exterior wall. Complete with integral backflow preventer, copper casing, all bronze interior parts with 1/2 turn ceramic disc cartridge and combination 3/4 [19] female solder and 3/4 [19] male pipe thread inlet. Stainless steel large flange box and hinged cover with operating key lock and “WATER” stamped on cover. (All solder connections are lead free.)

**Note:** During normal operation, the hydrant may take as long as one minute to complete the self-draining process. This drainage feature should not be mistaken for an unsealed shut-off of the hydrant, and over-tightening of the operating coupling is not necessary.
