

Z250H FOG-ceptor™ Interceptor

When your interceptor fails you need a fast, easy solution to get your business operating again. The Z250H FOG-ceptor interceptor is cost-effective, easy to maintain and ships within 24-48 hours. Backed by a 30-year warranty, the FOG-ceptor is made of durable fiberglass, outlasting concrete interceptors and providing superior performance with less maintenance. Choose Zurn for innovative product solutions, and a name you trust for all your plumbing needs.

Versatile

- Reduces maintenance with smooth, fiberglass construction for fast, complete pump-outs and easy rinse down – SAVING TIME AND MONEY
- Replaces failed interceptors in kitchen and outdoor applications for all above ground, semi-recessed and burial installations
- Retrofits fat, oil, or grease interceptors, with superior performance for the life of your building.

Reliable

- Locally stocked for fast delivery- keeping your business running with minimal disruption
- Third party certified to national performance standards PDI and UPC
- Reliable performance, backed by a 30-year guarantee
