Spec•Sport™ Specified Sport Systems

Custom drainage for arenas, rinks, running tracks, swimming pools, and other high pedestrian traffic areas.

High pedestrian traffic areas require special drainage needs. Zurn’s Specified Sport Systems provide functional drainage while enhancing your sporting space. With several color and grating options available, your drainage system will blend seamlessly with the surrounding area.

Features and Benefits

- Durable high density polyethylene composite channels, with grating or slot drain, provide durable drainage for your building, hardscapes and fields
- Class A through heavy-duty Class F load rating grates available
- Avoid tripping hazards and provide ease of mobility with optional heel proof and ADA complaint gratings
- Various grating and color options are available to match school colors or hardscapes
- Special duty utility trench drains available in several sizes to accommodate high volume drainage needs
- Removable grates for easy maintenance and cleaning
- Made in the U.S.A. options available
Spec•Sport™ Specified Sport Systems
