**ENGINEERING SPECIFICATION:** Zurn/Qest® 4 Zone Expandable Pump Relay Control. 120V AC power input with 20 amp combined maximum load. Allows easy connections of 120 V AC circulator pumps. The isolated end switch allows easy boiler connection. The Relay Control utilizes standard "ice cube" field replaceable relays. Controller is fully fused protected and includes a built-in domestic hot water priority switch. Connections are a reliable screw type connector. Controller has external indicator lights for each zone. Unit is expandable up to 20 zones and has a pre-wired power control plug for an Outdoor Reset Control. Controller is UL and CSA Approved.

**ACCESSORIES:**

- |                    |                                  |                    |                               |
